

NO WELDING OR PAINTING REQUIRED!

#8080 INSTA SOBO BLOCK LOCK

#8080 INSTA SOBO BLOCK LOCK DESCRIPTION:

The INSTA Sobo Block Lock features a high-security shackle with hardened steel and triple chrome-plated construction for maximum cut and corrosion resistance, making it an ideal shipping container lock. The shackle of the lock spins freely in the body making it virtually impossible to get leverage on the shackle to cut it. Internal mechanics and shackle are made with stainless steel to ensure rust resistance. The key system is difficult to duplicate, pick resistant, and a key retaining feature ensures the lock is not left unlocked. The product comes with four keys and is also available in keyed alike option.

WARNING - All products that require installation or fabrication should never be done until you have the product in hand to take exact measurements. While every attempt is made to make sure product specifications are accurate, there is the possibility the products have been updated or a small variance between production made the measurement off. Installation of products may require some fabrication experience, and in no way does warranty cover installation mistakes.
